

Introducing TupperLiving™

invigorate. Refresh. enjoy.

At last year's Jubilee, we introduced our new essence™ by Tupperware line of consumable products — essence™ Hand Soap, Pot & Dish Soap, and Hand Lotion. Since then, you have made these wonderful products shining stars at your parties!

Thanks to great products and your enthusiasm, consumables are a brand new category of products at Tupperware. Consumables is a multi-billion-dollar business and Tupperware needs to be right in there — offering your customers the very best. This new category provides opportunities for incremental future business generated from repeat orders from your customers. It also supports and enriches the party experience with unique and highly demonstrative products. The products selected for this category will always be a natural tie-in to your demonstrations.

Since we created a new product category, we also created an identity your customers will love. We proudly present our new selection of consumable products under a new sub-brand we call TupperLiving™.

TupperLiving™ is a unique lifestyle collection from Tupperware, featuring tantalizing scents, sensational tastes and extraordinary home accessories all featured in a beautiful new catalog that pictures an upscale lifestyle feel and elegant product photography.

To promote your new consumables category and encourage your customers to try it, we are offering special introductory prices for a limited time only. Once they try these new products, you can be sure they'll come back to you for more!

essence™ Fragrant Reed Diffuser

Fill this elegant etched glass bottle with the invigorating scents of fresh citrus and cilantro. Reeds gradually absorb and disperse scent throughout the room for a flameless, artistic alternative to candles.

Unlike other Reed Diffusers on the market, TupperLiving™ reeds do not need to be flipped over to maintain fragrance levels. To adjust the strength of the scent, simply reduce or increase the number of reeds used.

The bottle's elegant design is etched with the essence™ logo and designed to look beautiful in any home, regardless of individual style preferences. Set includes etched bottle, 8 oz. / 235 mL liquid fragrance, and 10 reeds. **G**

escence™ Antibacterial Gel

Specially formulated with moisturizer, aloe and vitamin E; this powerful gel kills 99% of germs without water while keeping hands soft and smooth. Most other antibacterial gels on the market today do not have this feature and as a result, they tend to be harsh on hands.

Small 2 oz. containers fit perfectly in the car, handbag, briefcase, office, gym bag, lunch bag or anywhere you come into contact with germs.

Set of three 2 oz./59 mL containers. **G**

Tupperware® Microfiber Towel Collection

Hailed as the best cleaning products in decades, microfiber towels are the latest must-have for every home. Unlike many other microfiber towels in the market, these towels are made from high quality fibers designed for maximum absorbency, durability and longevity.

The Kitchen and Multi-Purpose Towels feature double-sided waffle design, hemming throughout and extraordinary fiber content that allows each towel to absorb seven to eight times its weight in water.

The Micro Fiber consists of a blend of polyester and polyamide, a combination that is as effective for trapping dirt as it is for polishing without leaving streaks, smears, scratches or lint residue.

Each can be used dry or wet for cleaning. Used dry, the fibers act like a dust magnet. Used wet, with water or a small amount of detergent, the fibers can easily tackle the toughest grime.

Other towels on the market have a utilitarian look, not so with these towels. The Kitchen and Multi Purpose Towels feature a stylish double-sided waffle design and hemming throughout.

Microfiber Dishcloth

No need for bacteria-harboring sponges with this dishcloth. Vented weave allows for fast drying, minimizing bacteria growth. For fast cleaning, place on top shelf of dishwasher. 8" x 8"/20 x 20 cm cloth in Thyme Green.

Set of 2. **G**

To ensure lasting performance, microfiber towels require special care:

- Machine wash with cold or warm water. Washing in extremely hot water will cause fibers to shrink and not perform as intended. Water temperature must not exceed 105°F / 40 C for the Kitchen and Multi Purpose Towel and 194°F / 90 C for the Dish Cloth.
- Liquid detergent is recommended because some powders do not completely dissolve and the granules can become lodged in the fibers.
- To avoid shrinking, tumble dry at a low heat only, or hang until dry.
- Do not use fabric softeners of any kind (including dryer sheets). The softener will become lodged in the fibers reducing their ability to absorb water, clean and pick up dirt.
- Do not bleach.
- Do not iron.

To help your customers properly care for their towels; brief instructions are given on each towel's label and a comprehensive product insert is included with each towel set.
